Claims 1-32 are presented for examination.

Claims 1-26 and 29-32 are rejected under 35 U.S.C. 103 as being unpatentable over WO Patent 98/34644 for the reasons set forth on pages 2 and 3 of the office action of June 4, 2003.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant is reminded that although Steward teaches the addition of photosensitizing agent to injured tissues, it also teaches that such addition can be to the pre-injured tissues or the none-target area. The above reference makes clear that during the photodynamic therapy the photosensitizing agent can spread to non-target area. The relied upon reference on page 16 teaches that in view of well known potentially destructive necrosis effect of PDT, there is a need for the reduction or prevention of inflammation in such a way that the degree of pharmaceutical activity can be reliably controlled. Furthermore, the claims of the instant application are drawn to the treatment of unwanted neovasculation of the eye using PDT and using a second treatment of lower dosage irradiation on the treated area and the adjacent area in order to prevent the inflammation and injury caused by first dosage of irradiation. The relied upon reference makes clear that the anti-inflammatory property of low dosage irradiation during photodynamic therapy for the tissues treated or the adjacent tissues is old and well known. Applicant has presented no evidence to establish the unexpected or unobvious nature of the claimed invention, and as such, claims 1-26 and 29-32 are properly rejected under 35 U.S.C. 103.

Claims 27 and 28 are objected to as being dependent on a rejected claim.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
